MEMORANDUM FOR:

Executive Officer

Office of Finance

FROM

Chief, Accounts Division.

Office of Finance

THROUGH

Deputy Director for Financial Operations

SUBJECT

: Revision of Staffing Complement

1. This is a suggested reorganization of positions and grade structure in Accounts Division. It is intended to reflect the focus of duties and responsibilities as they have evolved and particularly as they are being affected by conversion to the new General Accounting System.

exactly the same total grades and average grade. Schedule II is the same thing in a different format.

4. This proposal does not provide for a position of deputy division chief. It is my belief that a group of this size will function better with strong branch chiefs than with a heavy hierarchy. It is my hope that if the division chief is to be replaced from outside the branches, the development complement could be used for temporary overlap slotting. Without a deputy we would not have a person with the flexibility, expertise and contacts to acquire information on systems and procedures of organizations outside the Agency.

5. The Data Base Management Branch will have a heavy work load in accommodating the bad data rejection function of the new accounting system. We are fortunate now to have several capable trainees (on 3-month cycles) and a co-op student, and others are scheduled within the next several months. I understand that we have been promised two additional slots for FY 1978.
